

CALL FOR EXPRESSION OF INTEREST (EOI)

BENEFICIARY COUNTRY:

China, Republic of Korea

REFERENCE NUMBER:

E-I-08-climchgdemo-2154

DESCRIPTION:

To illustrate the efficacy of the Strategic Action Programme's (SAP) management actions, the YSLME Project will conduct demonstration activities of some of the management actions.

The Project seeks institutions or individuals to implement a demonstration activity on **"Assessing and Monitoring the Impacts of Climate Change on the Yellow Sea's Ecosystem"** in order to show the benefits of carrying out regular monitoring of the Yellow Sea, and how the information will be used for better management of Yellow Sea's ecosystem.

DEADLINE DATE FOR SUBMISSION OF EOI:

7th March 2008

POSTING DATE:

15 February 2008

Objectives and Scope

The "UNDP/GEF Yellow Sea Large Marine Ecosystem (YSLME) Project" aims to facilitate protection and sustainable use of marine and coastal resources in the Yellow Sea. To achieve this objective, the Project has identified management actions in its preparation of the SAP. It is expected that implementing the management actions will mitigate environmental problems in the Yellow Sea and improve its diverse ecosystems.

The Yellow Sea Large Marine Ecosystem is defined in the Project Document as the body of water delineated at the south, by a line connecting the north bank of the mouth of the Chang Jiang (Yangtze River) to the south side of Cheju; at the east, by a line connecting Cheju Island to Jindo Island along the coast of the Republic of Korea; and to the north, a line connecting Dalian to Penglai (on the Shandong Peninsula). This latter line separates the Bohai Sea from the Yellow Sea and as a result is not included in the project.

The demonstration activity will be administered by UNOPS through the Project Management Office in Ansan, Republic of Korea.

Expected Procurement Components**Consulting Services**

The demonstration activity on "Assessing and Monitoring the Impacts of Climate Change on the Yellow Sea's Ecosystem" should address the regional target of "better understanding and prediction of ecosystem changes for adaptive management." This activity should show the benefits of regular monitoring in the Yellow Sea, and how the results can be used for better management of the Yellow Sea's ecosystem.

The activity should also meet the following requirements:

1. Access the results from the 2 co-operative cruises held between China and ROK in 2008;
2. Develop regional guidelines on monitoring and research regarding the impacts of climate change on ecosystem in the Yellow Sea;
3. Compile existing data and knowledge on the assessment of impacts of climate change;
4. Develop necessary models for studying impacts of climate change on ecosystem in the Yellow Sea;
5. Commence developing or harmonising national and regional monitoring methodologies and assessment of impacts;
6. Begin establishing a basin-scale monitoring network; and
7. Initiate dialogue with relevant government agencies to increase investment on taxonomical research, and develop schemes with relevant agencies to incorporate the assessment into management policy.

The expected outputs of this activity are:

1. Regional guidelines on monitoring and research regarding the impacts of climate change on the ecosystem in the Yellow Sea;
2. Illustrated improved data and knowledge gathered on climate change impacts in the Yellow Sea;
3. Plans developed with policy making bodies to incorporate the improved data and knowledge into management.
4. The final report should also include descriptions of the signal of climate change in the Yellow Sea Cold Water Mass (volume of water mass, intensity of stratification, range and average temperature); and
5. The final report should also include the signal of climate change from the plankton and benthos communities.

The maximum implementation period of the project is 18 months. The project must be completed by December 2009 at the latest.

Qualifications:

- At least 10 years proven track record in the area of coastal and marine research in the Yellow Sea.
- Proven prior work in monitoring and modelling.
- Ability to access necessary data and information through databases, information centres, and other relevant institutions in the region.
- Ability to liaise with NGOs, governments, and other institutions within the region.
- Good interpersonal skills and ability to work both as a team and individually.
- Working knowledge of English.

Special Procurement Conditions and Additional Information

UNOPS invites suppliers capable of providing the services in above category to submit their expression of interest.

In order to be considered as a potential supplier, interested enterprises should submit their Expression of Interest including the following information:

- **brief presentation of your enterprise including number of staff, turnover, years in business**
- **reference list demonstrating your qualifications for participating in this possible upcoming bidding process**
- **contact information (full name and address, country, telephone and fax numbers, e-mail address, website and contact person)**

The Expression of Interest and accompanying documents must be received by UNOPS no later than 7th March 2008 on the address below.

Expressions of Interest can be sent by e-mail or fax (max. 10 pages) to the contact person below. Please indicate **Ref. No.: E-I-08-climchgdemo-2154** on all submissions.

This call for Expression of Interest does not constitute a solicitation. UNOPS reserves the right to change or cancel the requirement at any time during the EOI and/or solicitation process. UNOPS also reserves the right to require compliance with additional conditions as and when issuing the final solicitation documents. Submitting a reply to a call for EOI does not automatically guarantee receipt of the solicitation documents when issued. Invitations to bid or requests for proposals and any subsequent purchase order or contract will be issued in accordance with the rules and procedures of UNOPS.
